

## Company Care After Hours Drug/Alcohol Testing Procedures

Heartland Toxicology is the company that Company Care utilizes to perform after hours drug and/or alcohol testing for the City of Lincoln/Lancaster County.

### Procedure:

Contact one of Heartland Toxicology's collectors (see below). Please contact them in this order (i.e. #1 cell, #1 other, #2 cell, #2 other, etc.) Make sure to call the cell and then the "other" number before moving onto the next name. Leave a message with each number called. Keep calling the numbers until someone answers.

1. Todd Haverkamp
  - a. Cell – 402-890-6610
  - b. Other – 402-489-8786
2. Kami Eiler
  - a. Cell – 402-890-6610
  - b. Other – 402-465-0770
3. Barb Skiles
  - a. Cell – 402-304-7343
  - b. Other 402-467-1301

Let the collector know where they need to report. You will need a restroom available that can be "locked down" for the collection of the specimen.

Once the on-site drug testing company has been activated, even if the City/County wants to cancel this service, the City/County will be charged.

Unless the employer has their own COC, or has authorized some other type of panel, a 5 – panel drug screen will be collected and sent in on a Company Care COC.
